

**Project Title**

Personal Website Muhammad  
Aryo Muzakki

**Year Accomplished**

2024

**Role**

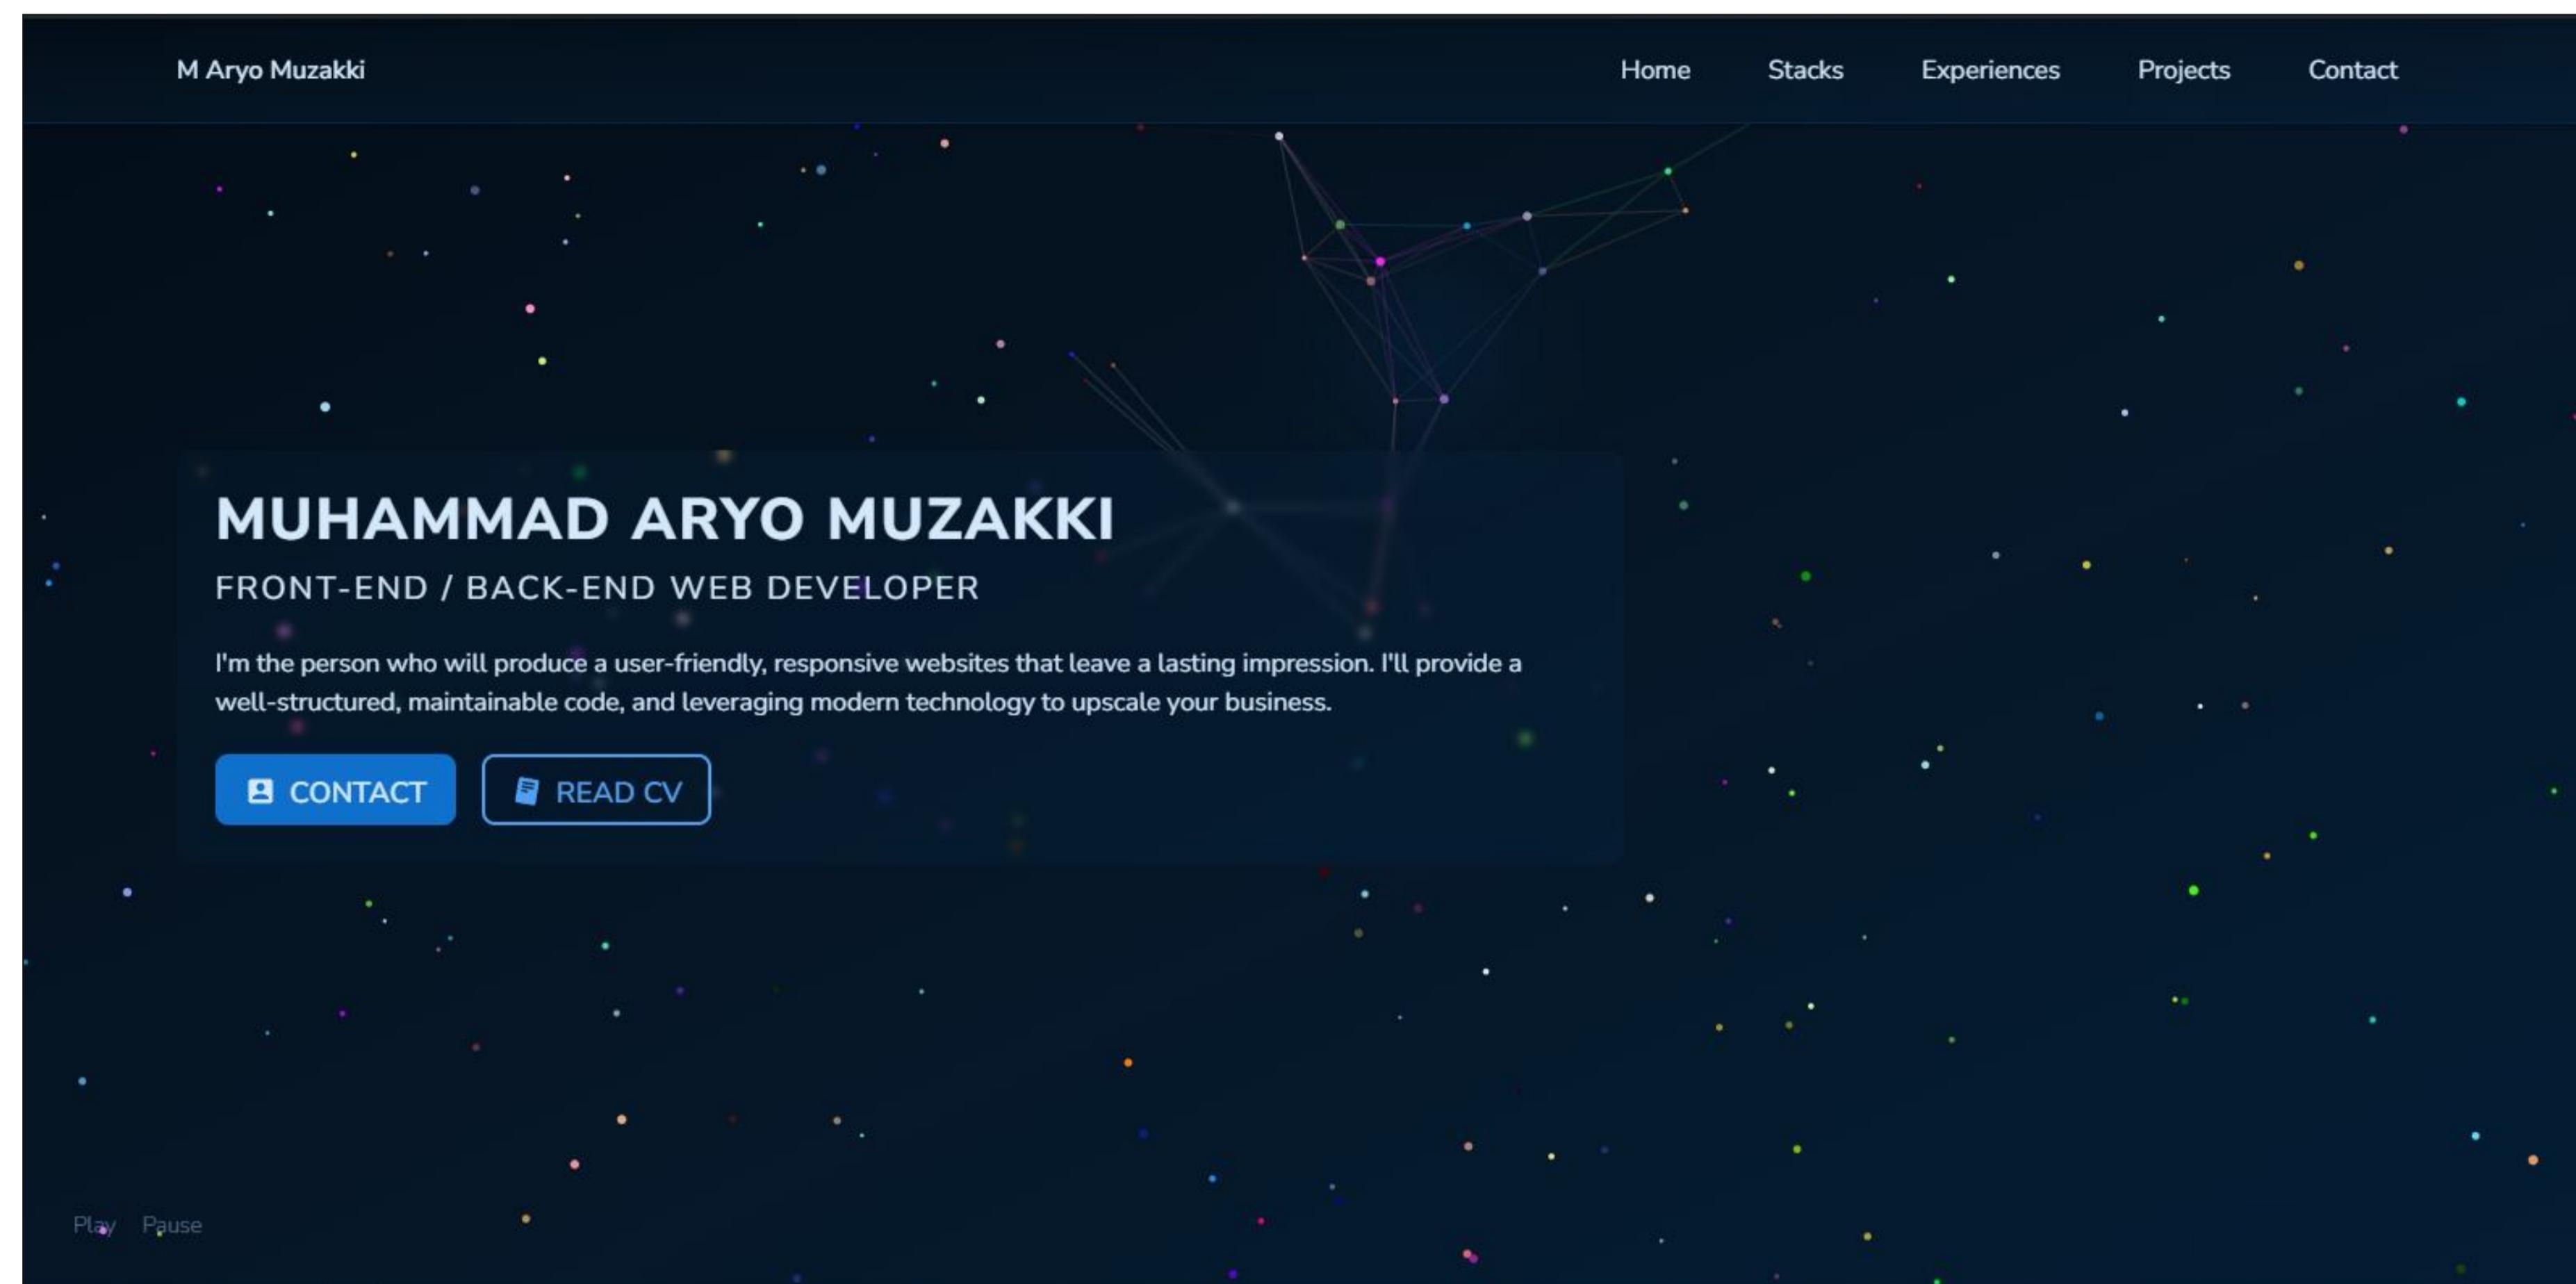

Full Stack Web Developer

**Publication Link**

[muzakki.vercel.app](https://muzakki.vercel.app)

**Project Description**

This is my personal website that I designed and build by myself. It uses the latest NextJS Framework, and uses a unique js library to make it interactive for fun without losing purpose and without sacrificing performance. It still in process for a future plan I made for this website to make it more interactive and attractive.

**Project Title**

Website Universitas Satya Terra Bhinneka

**Year Accomplished**

2022

**Role**

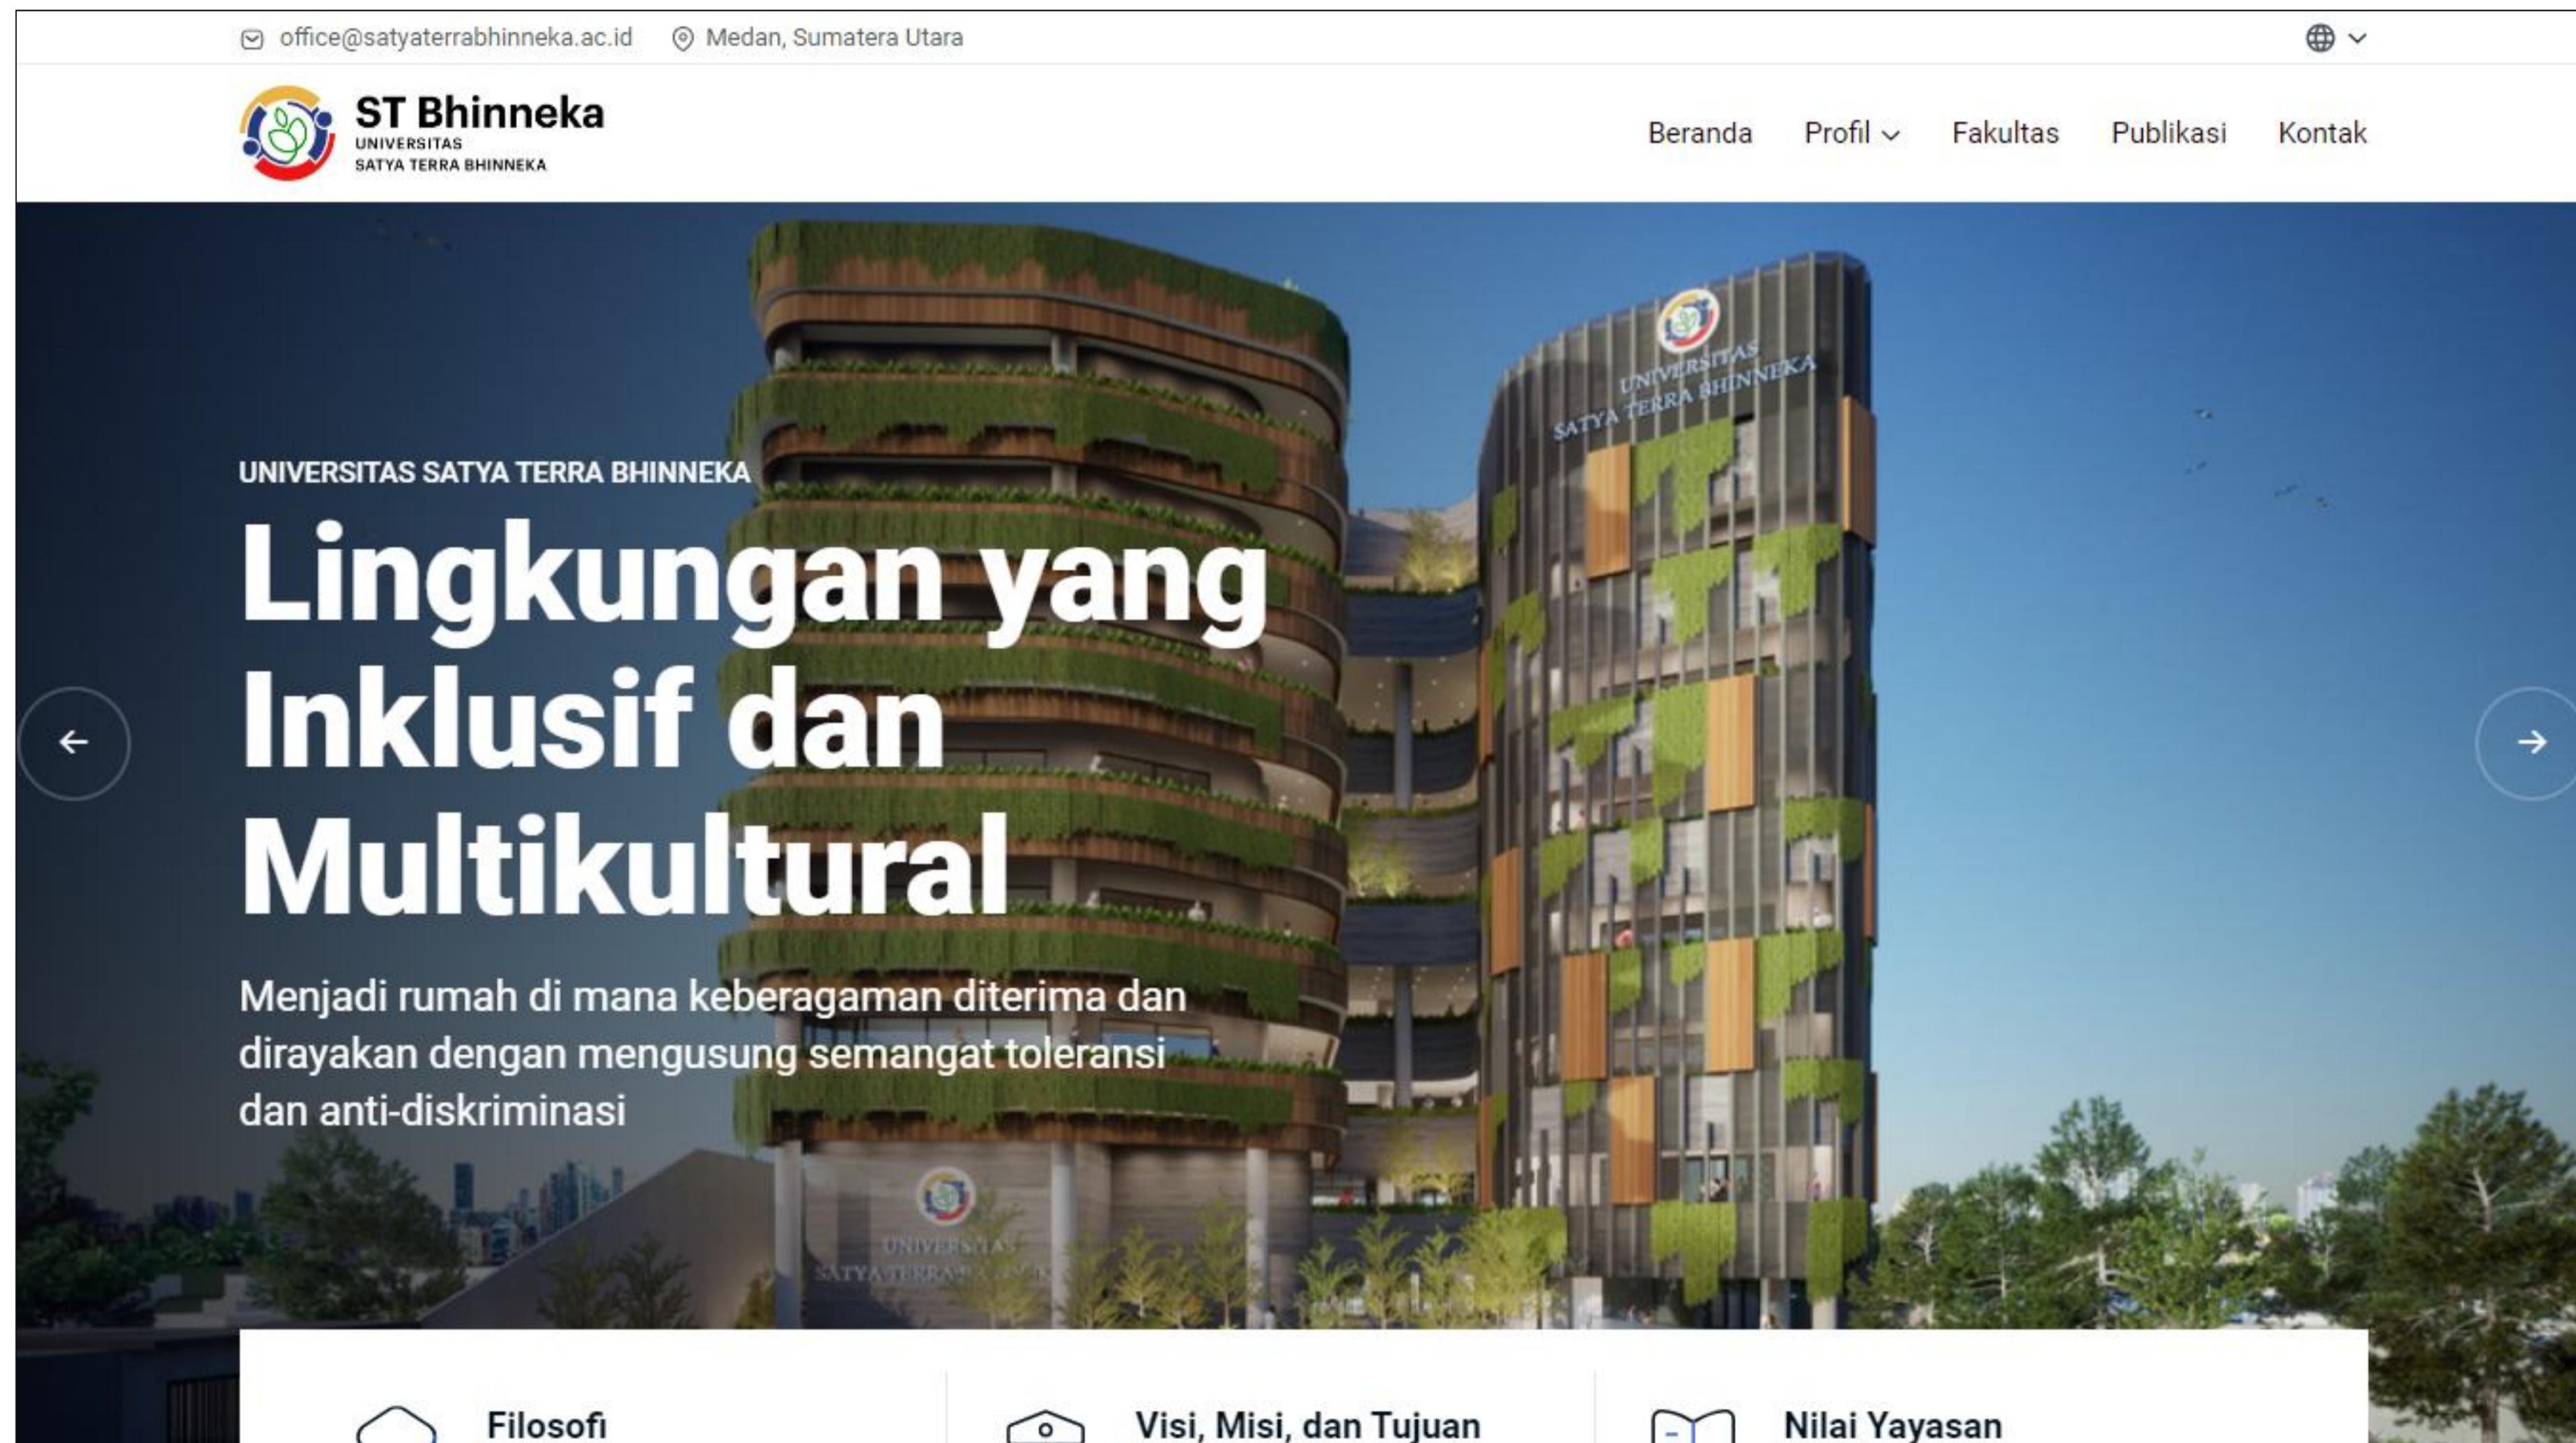

Full Stack Web Developer

**Publication Link**

[satyaterrabhinneka.ac.id](http://satyaterrabhinneka.ac.id)

**Project Description**

This is a University Website for Satya Terra Bhinneka University, one of our clients. I built this website using a premium template from Envato. I updated the code to match recent versions, and modified it as required. There are profiles page, faculties, blogs/publications, and contact page. This website also has multi-language features.

**Project Title**

Website Matakail  
Communication

**Year Accomplished**

2022

**Role**

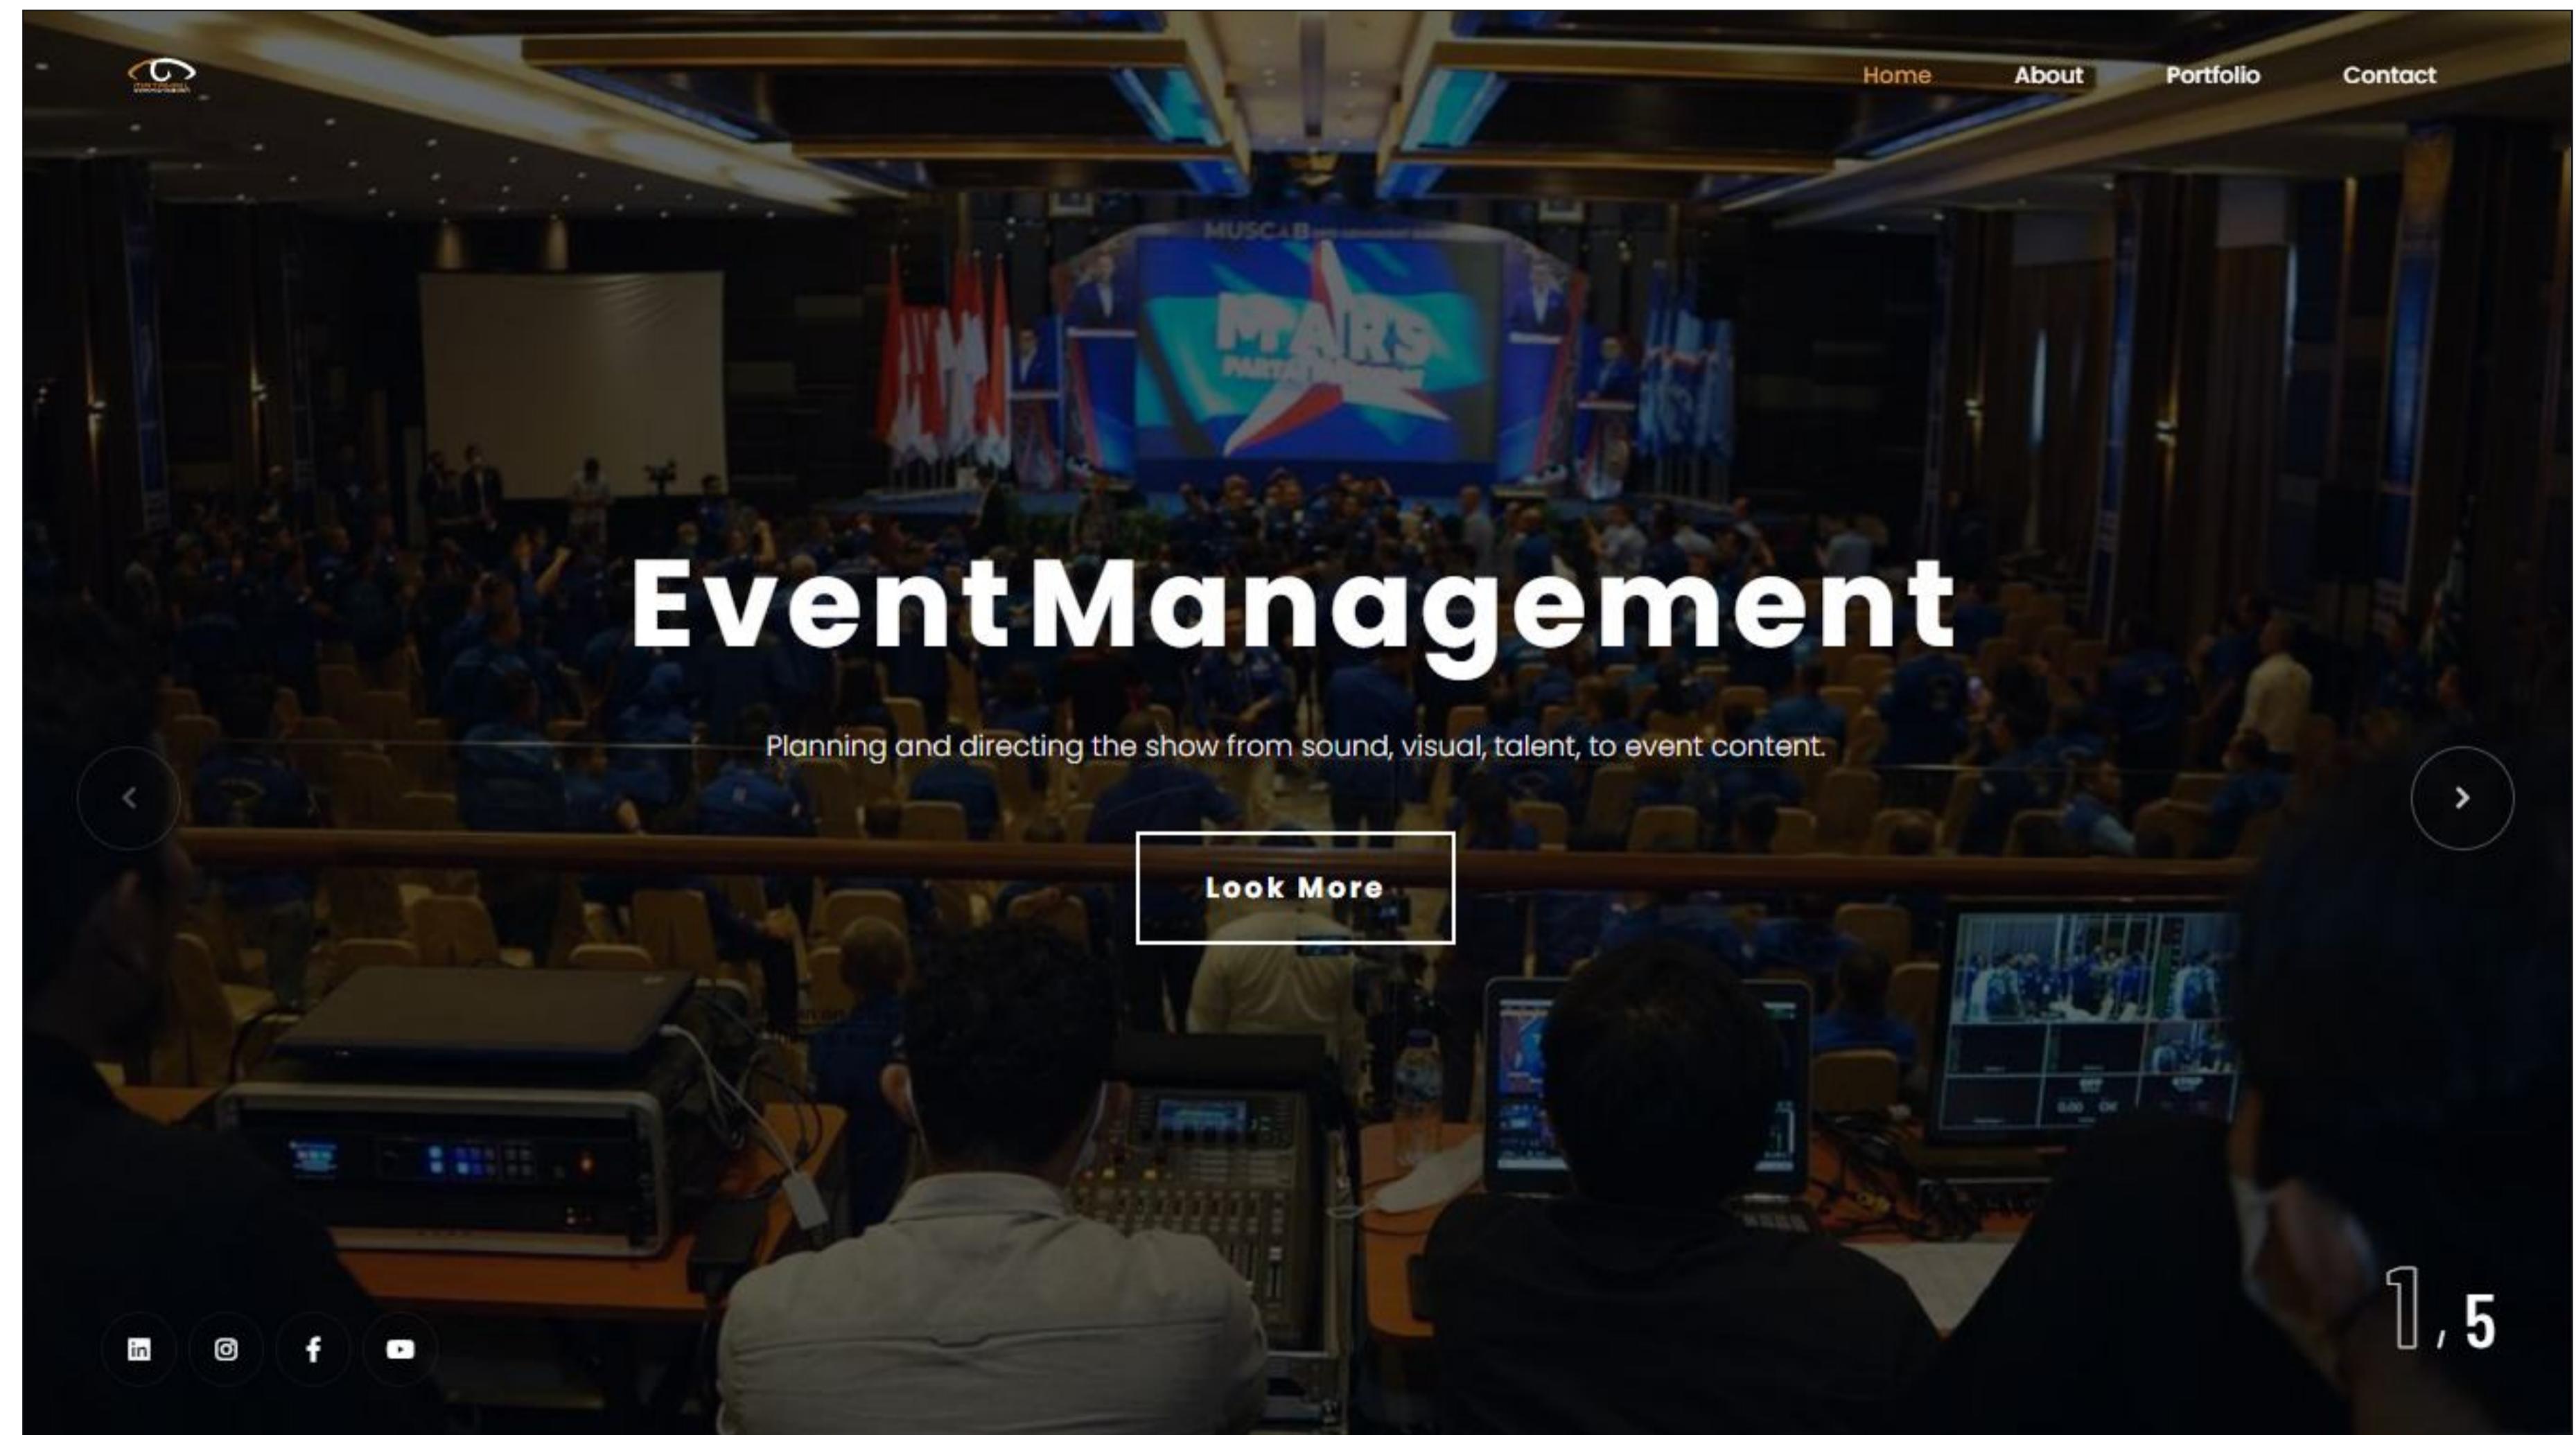

Full Stack Web Developer

**Publication Link**

[matakailcommunication.com](http://matakailcommunication.com)

**Project Description**

This website is the Main Company website (an Event Organizer). I rebuild from beginning an already existing website built in php into a Next JS website with template from envato. There are company profile landing page, about page, portfolio page, and a contact form where the data will be sent to our gmail and saved to spreadsheet.

**Project Title**

Website Halal Center Indonesia

**Project Description**

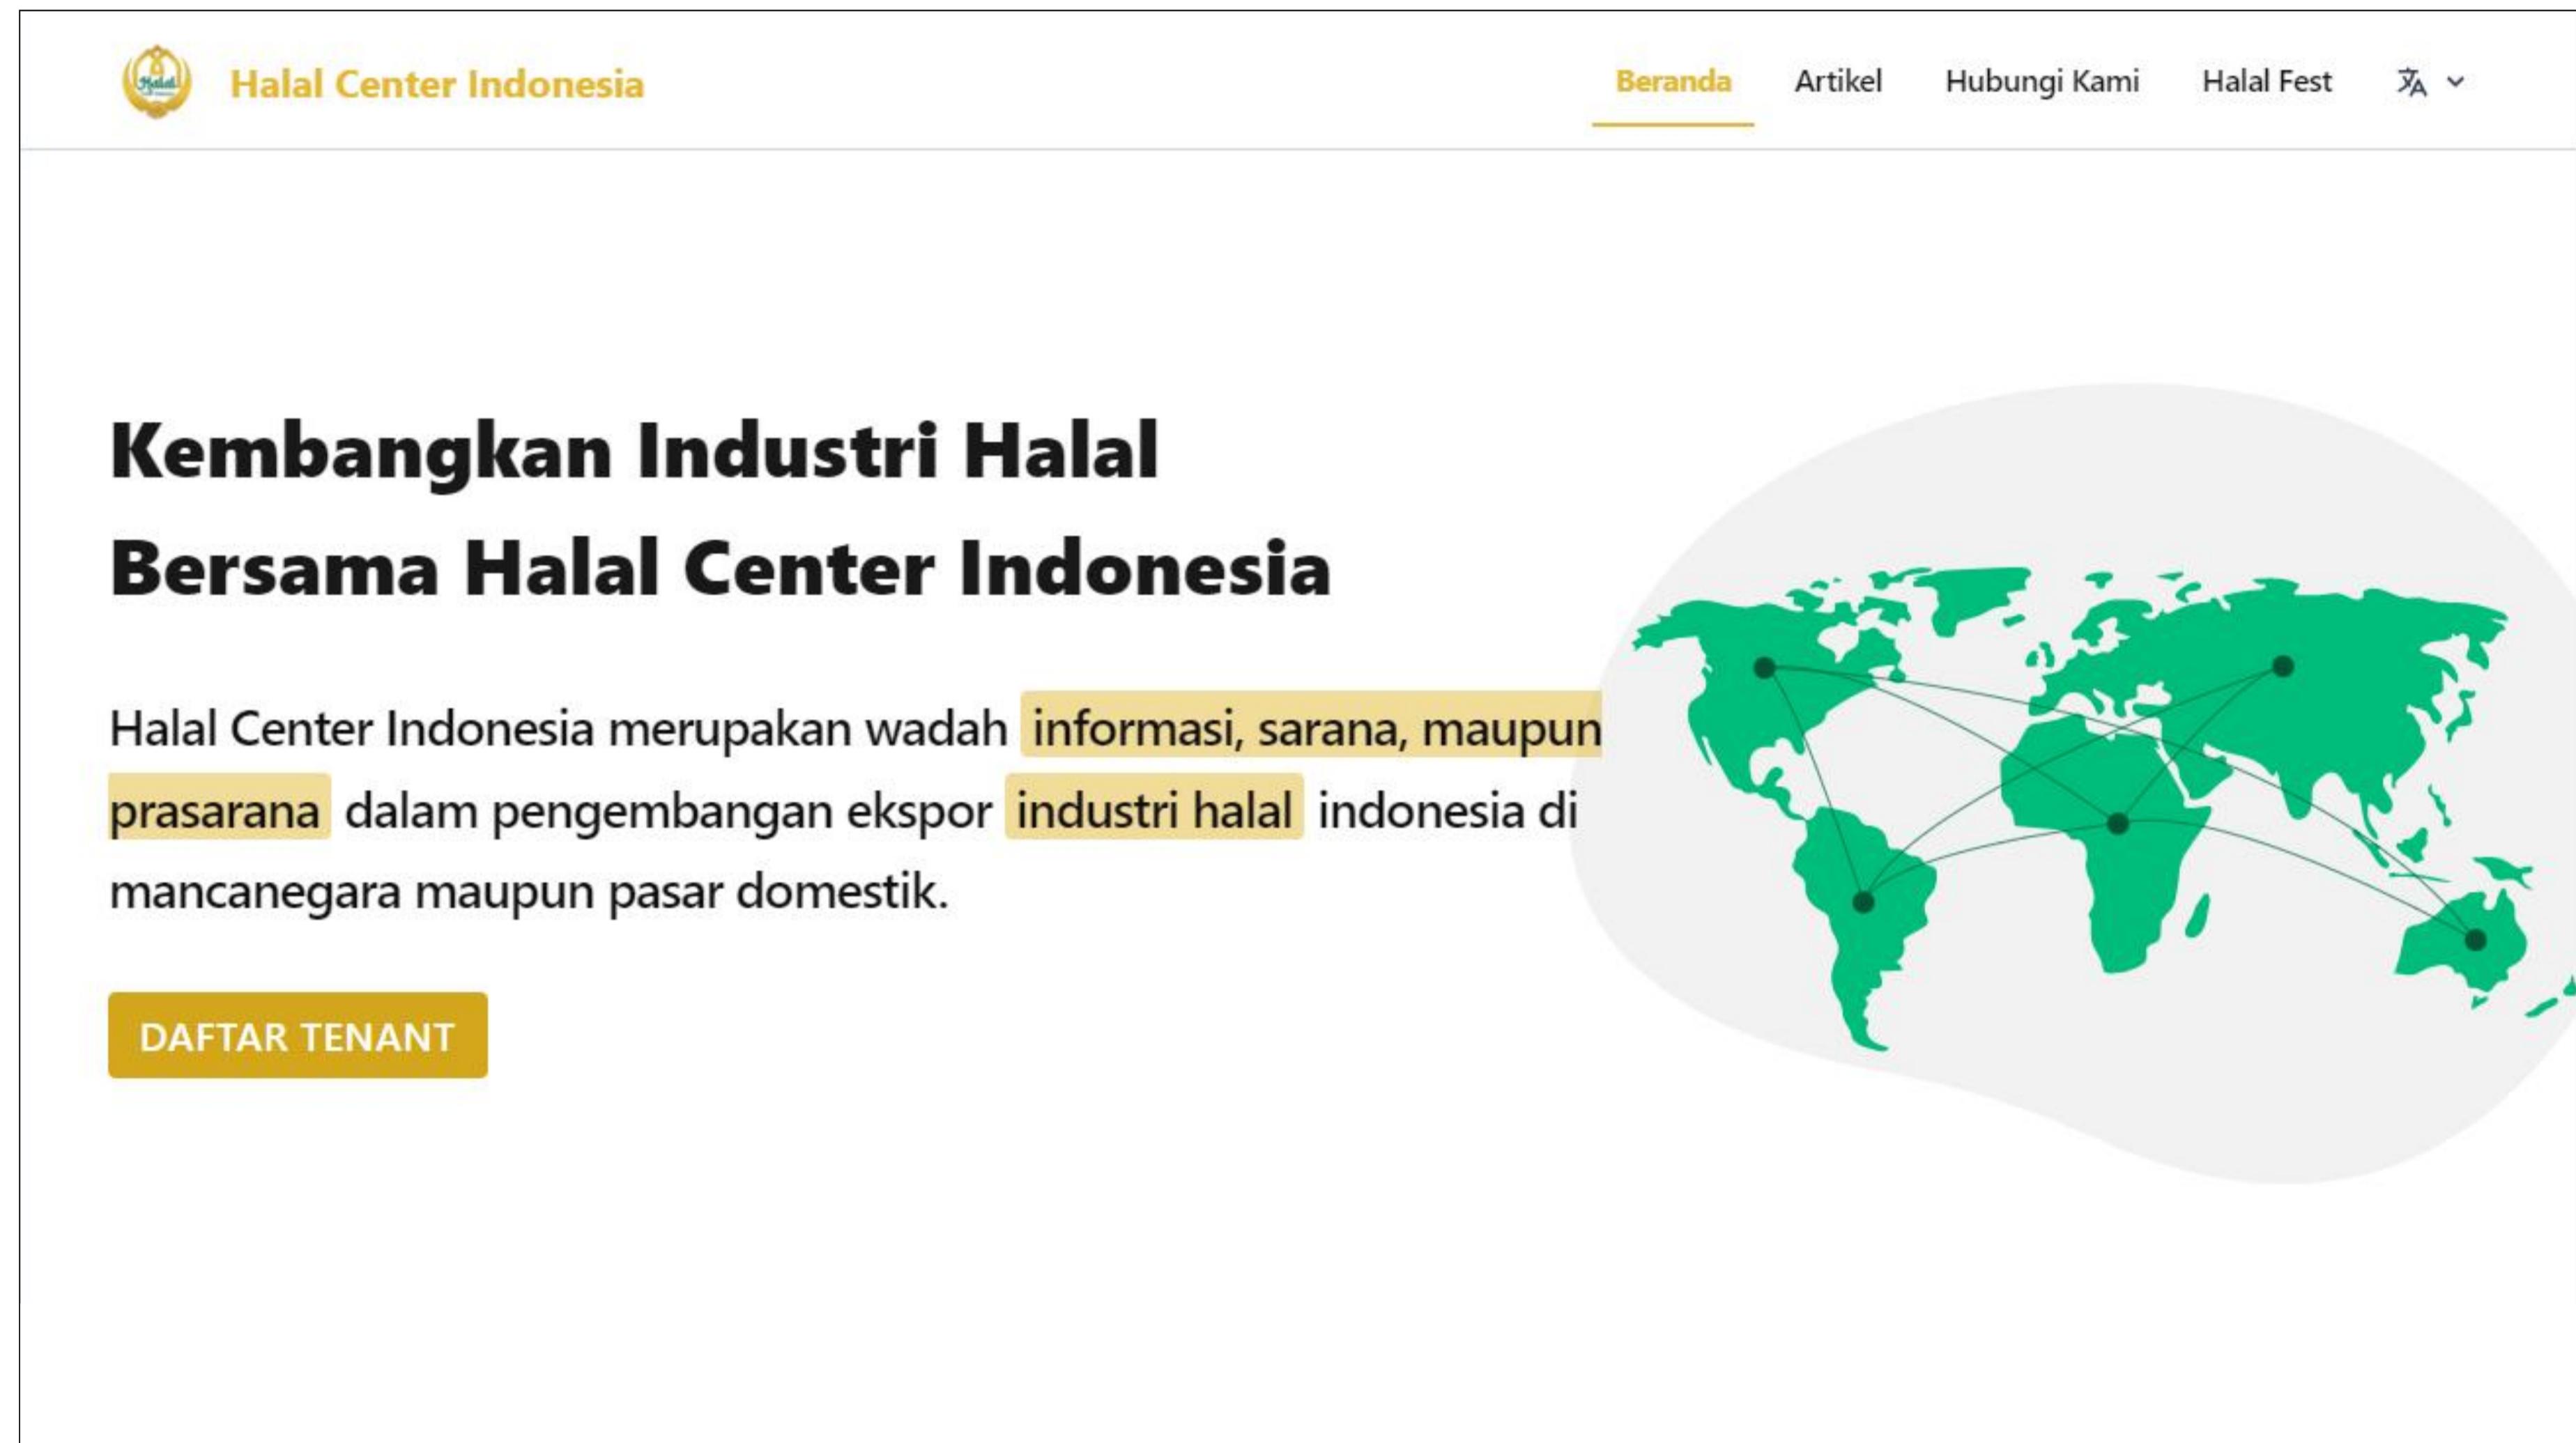

This is a company profile for Halal Center Indonesia, one of our clients. Features included are landing page, blog, contact form that will fill up the Google Spreadsheet, multi-language (Indonesia and English). The blog data are provided using WordPress.

**Year Accomplished**

2022

**Role**

Full Stack Web Developer

**Publication Link**[halal-center-indonesia.vercel.app](https://halal-center-indonesia.vercel.app)

The screenshot shows the homepage of the Halal Center Indonesia website. At the top, there is a navigation bar with the logo "Halal Center Indonesia" and menu items "Beranda" (which is underlined), "Artikel", "Hubungi Kami", and "Halal Fest". Below the navigation bar, the main title "Kembangkan Industri Halal Bersama Halal Center Indonesia" is displayed in large, bold, black font. To the right of the title, there is a graphic of a world map with green continents and black dots representing global reach, connected by a network of lines. Below the title, there is a paragraph of text in Indonesian: "Halal Center Indonesia merupakan wadah informasi, sarana, maupun prasarana dalam pengembangan ekspor industri halal indonesia di mancanegara maupun pasar domestik." At the bottom left, there is a yellow button labeled "DAFTAR TENANT".

**Project Title**

Website Azisten

Project 5 of 5

**Year Accomplished**

2021

**Role**

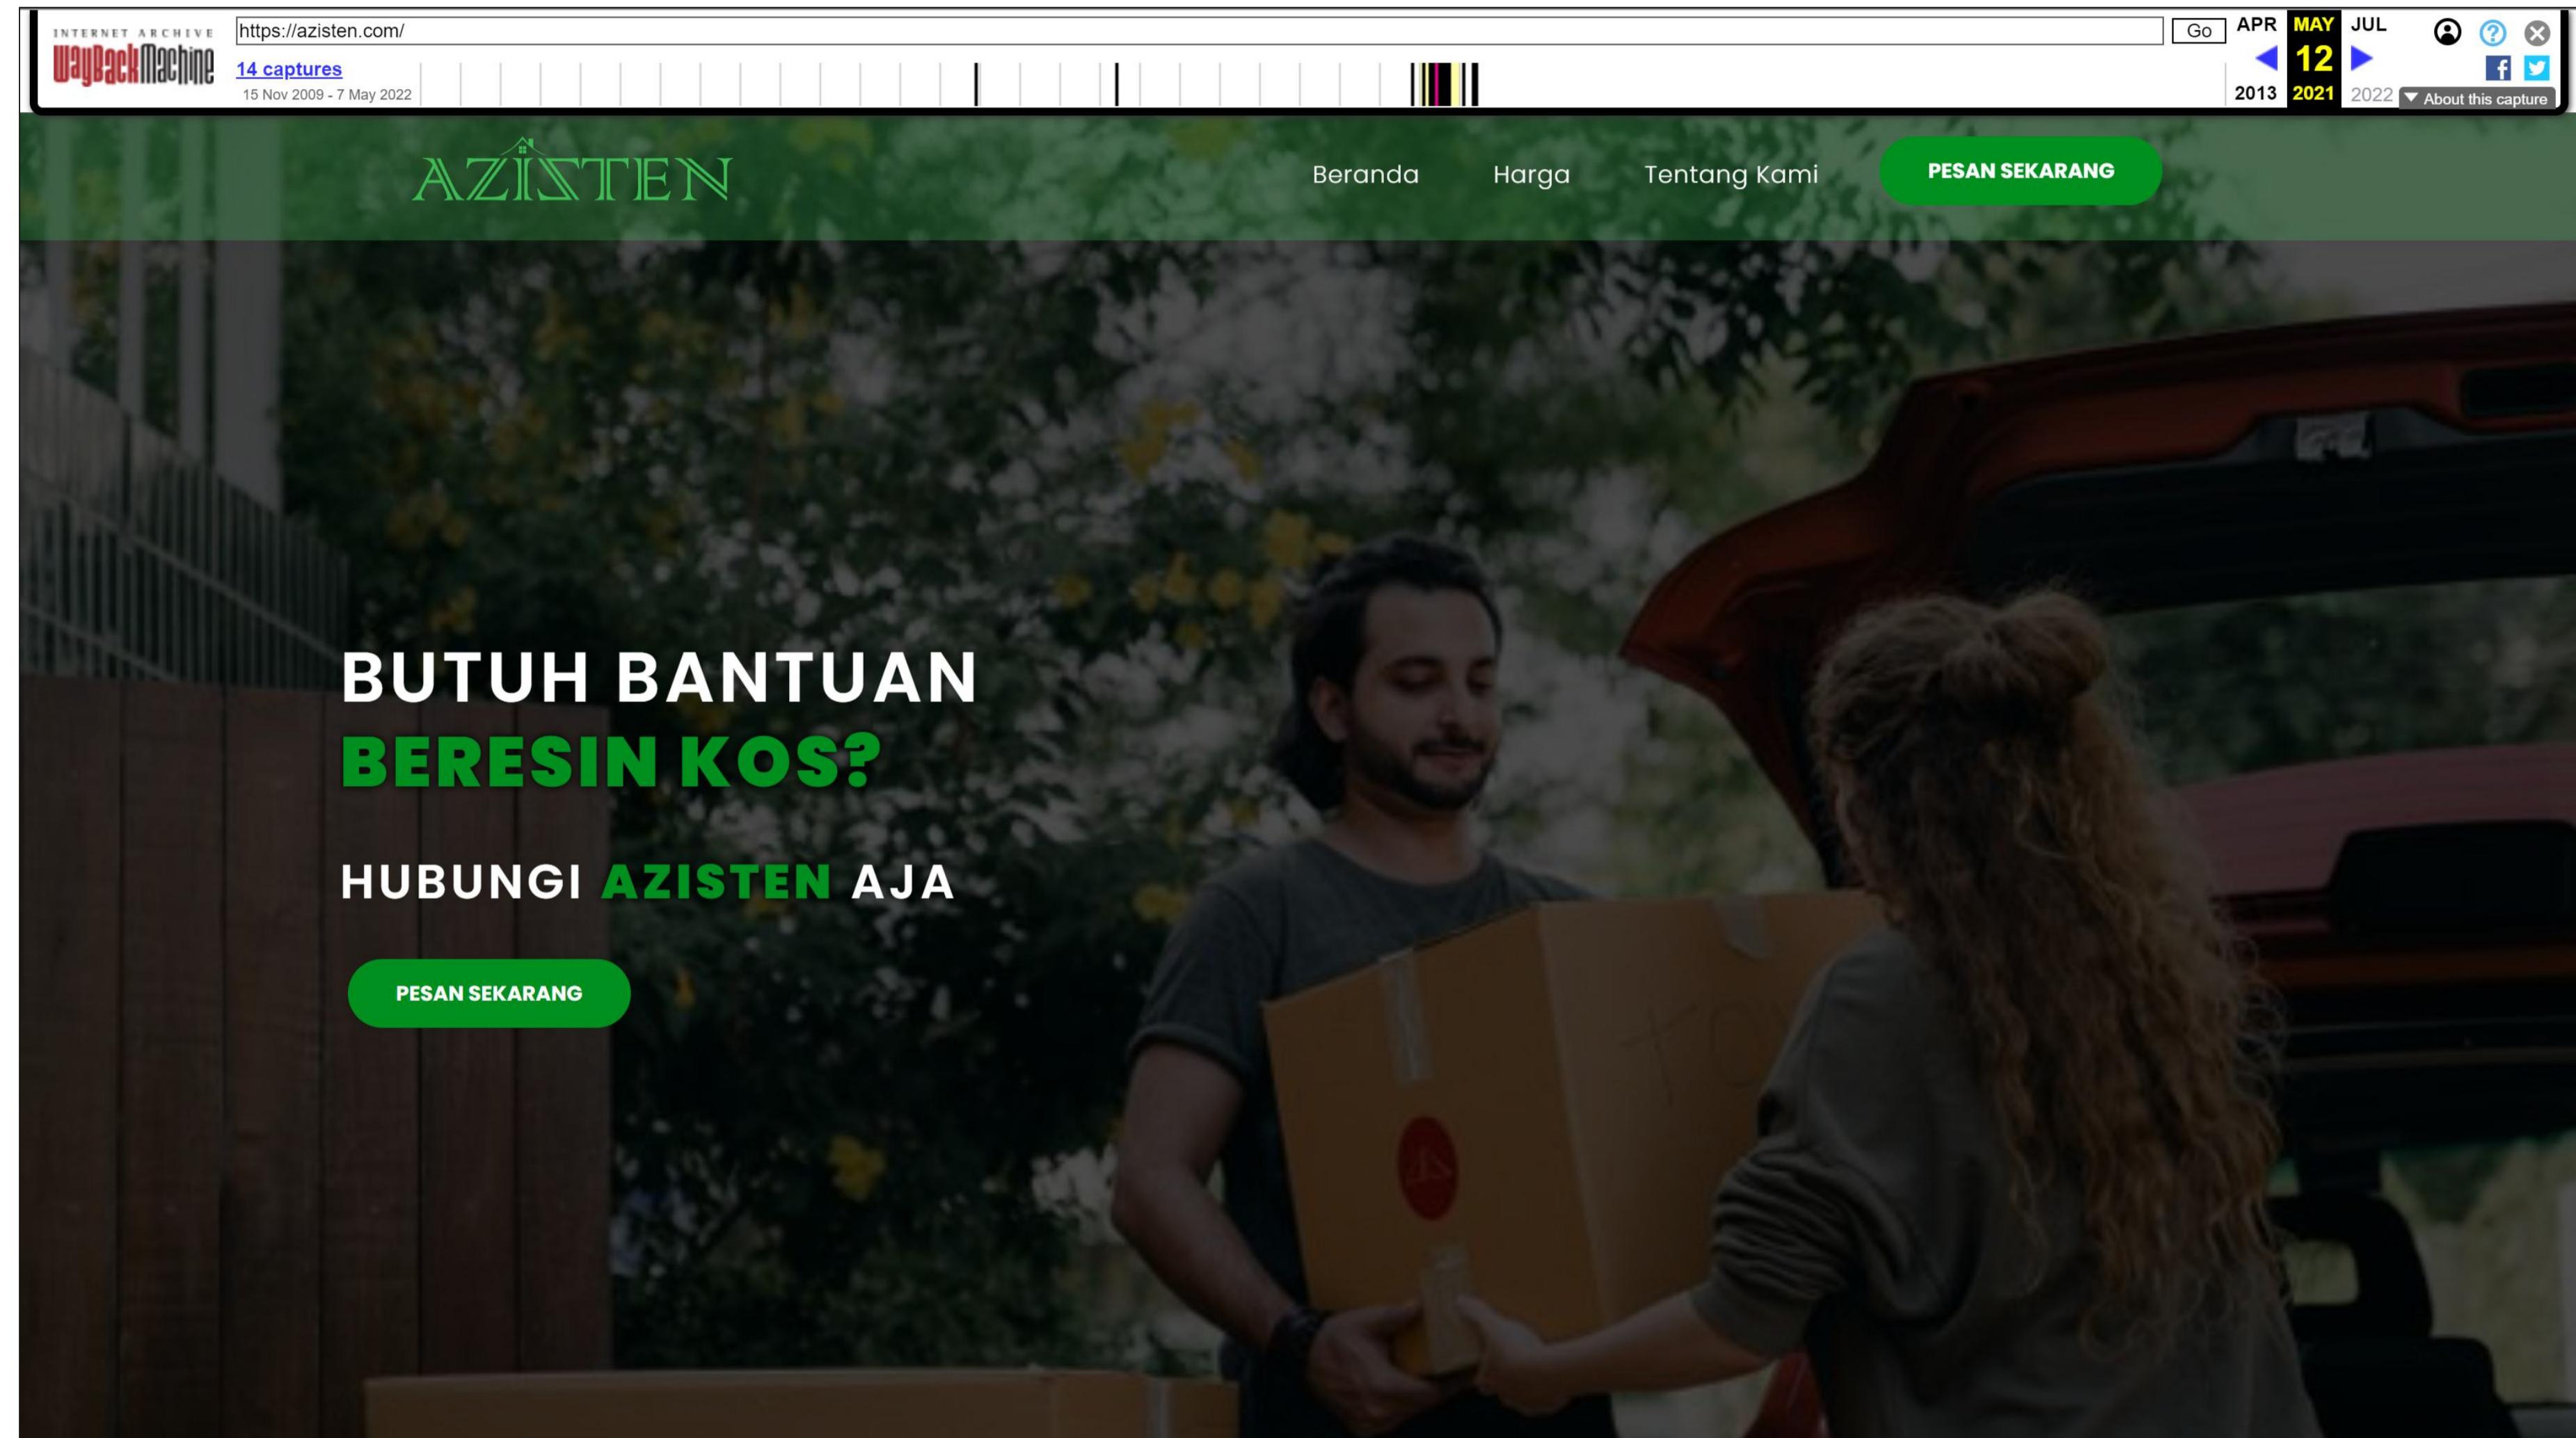

Full Stack Web Developer

**Publication Link**

[azisten.com \(archived\)](https://azisten.com)

**Project Description**

This is a website for a company that I and my friends once tried to build called Azisten. Azisten is a Company that will help people to clean up their rent-house. The feature are landing page, price list, and a order form that will connect to Whatsapp.
